Dynamic Software Engineer with expertise in Java, Vue.js, and Spring Boot, passionate about building innovative solutions that solve real-world problems. Equally comfortable debugging complex systems or exploring cutting-edge technologies like machine learning (PyTorch). A quick learner with a sharp mind, I thrive on challenges and enjoy turning ideas into functional, impactful applications.

EDUCATION

Bachelor of Computer Engineering
Advanced College of Engineering and Management.

01/2023 - Present   *Kathmandu,Nepal*

SKILLS

HTML & CSS   Java   JavaScript   MySQL

Python

WORK EXPERIENCE

Developer
Raise Tech Pvt. Ltd.

01/2023 - Present   *Kathmandu,Nepal*

Achievements/Tasks

- Promoted from Intern to Mid-Level Developer within one year due to technical contributions and problem-solving skills!
- Optimized workflows and debugged critical issues in ERP system, enhancing operational efficiency!
- Designed and developed enterprise-level CRM web application, integrating MySQL for secure data management!
- Conducted R&D to improve system scalability and address technical challenges!
- Collaborated with cross-functional teams to design, test, and deploy features aligned with business goals!

PERSONAL PROJECTS

CRM Web Application
- *Developed under Raise Tech Pvt. Ltd.*
- Role: Full-stack developer.
- Technologies: Java, Vue.js, Spring Boot, MySQL.
- Description: Built an enterprise-level CRM system to streamline customer relationship management and improve business operations.

Machine Learning Practice
- *Self-Learning Initiative.*
- Explored CNN models using PyTorch to classify images and perform data preprocessing.
- Practiced implementing neural networks and optimizing model performance.
